The Pastors Personal Assessment is a tool for helping identify areas of strengths and weaknesses. When we are honest with ourselves and with God about who we are, it is then that He can better direct us. It is then that we are ready to listen, submit and obey Him!

We all need others in our life to sharpen us and true sharpening comes when accountability is embraced. We are here to serve you and help you in this journey. We are praying for you! Do not give up!
